

SEO Report

Prepared for Merchant demo — sample data · September 9, 2026 · since September 9, 2026

Overall SEO score

93

/100

Grade A +1

21 pages scored

The overall score is the average of the latest per-page scores across every scanned target, on the published Rankbeam rubric (A ≥ 90, B ≥ 75, C ≥ 50, D ≥ 25). The change shown is versus the previous report.

OVERALL SCORE PER SCAN — higher is better

AI-readiness

50

/100

Grade C

21 pages scored

A separate, deterministic measure of how well AI crawlers and answer engines can reach, read, and attribute this content — bot access, discoverability, machine-readable content, and structured data. It is never blended into the SEO score. The change shown is versus the previous report.

AI-READINESS PER SCAN — higher is better

Issues found per scan

Issues

Summary		
OPEN ISSUES	FIXED SINCE LAST	NEW SINCE LAST
19	1	0
BY SEVERITY		
0 critical		
5 warning		
14 notice		
ISSUE TYPE	SEVERITY	PAGES AFFECTED
description too short Description is only 68 characters (recommended min 70).	notice	8

title too short Title is only 26 characters (recommended min 30).	notice	3

ISSUE TYPE	SEVERITY	PAGES AFFECTED
thin content Page body has only 158 words (recommended at least 200).	notice	3
description too long Description is 194 characters (recommended max 160); it may be truncated.	warning	1
missing description Page is missing a meta description.	warning	1

Recovered

BROKEN LINKS FIXED
0
0 still open

404S RECOVERED
0
fixed at the source

404S REDIRECTED
0
since last report

OPEN 404S
0
still unresolved

Broken-link fixes are tracked exactly. A 404 counts as **recovered** once the path returns 200 again on its own, and as **redirected** once a redirect is created for it.
